1. Aims

Schools are required to have an accessibility plan under the Equality Act 2010. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum.
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided.
- Improve the availability of accessible information to disabled pupils.

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Staff and governors of Fearnhill School will endeavour to ensure that all students reach their full potential, receive a comprehensive and balanced curriculum and are fully included within the school community. The main aim of all teachers and support staff is to promote learning, so it is clear that as an inclusive school all staff must share the responsibility of ensuring that all ability students make progress. At Fearnhill, we are committed to providing whatever support is necessary for all members of our school community to succeed, achieving their full potential and fulfilling our vision of 'The Fearnhill Student'.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

The following information was considered when formulating the plan:

- The School's population
- The impact of the Fearnhill's existing plans and priorities
- The nature of future intake
- The level of staff awareness of special educational needs and disabilities
- The presence of students with disabilities and their participation in the life of Fearnhill
- The impact on students with disabilities of the way in which the school is organised, for example, school policies and practices around the administration of medicines, time-tabling, anti-bullying policy, school trips and teaching and learning
- The physical environment of the buildings
- The curriculum
- The ways in which information is currently provided for students with disabilities
- Progress of students with disabilities and their outcomes in external testing including GCSE, A level and BTEC.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory

impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

3. Action plan
