

Art and Design GCSE Summer Bridging Project

Hi Everyone,

You have an Art bridging Project to do over the summer. Please see enclosed project sheet in your art-kit or scroll down and open attachment. Please read the following advice:

- Choose one of the following tasks on your Bridging Project sheet
- Carefully read and follow the instructions next to the topic image you selected
- You can create your task on either x1 A3 page or x2 A4 pages.
- Work should be made from either direct observation or from primary and secondary source images.

Top tips to help you develop your idea:

1. It would be nice to see a title page of your chosen theme on the front inside page of your A4 Sketchbook - it can a drawing, painting or even cut out letters and pictures from magazines or from the internet
2. Next step: Create an illustrated mind-map or make some notes on your theme on the next page (It can be across the double page if you like). Again, you can glue down cut out pictures relating to your idea
3. Look at some artists' works and images on the internet or from magazines for inspirational ideas
4. Record the ones you like through note taking or you could print off info and images that inspire you and glue them neatly in your A4 sketchbook.
5. Use your A5 sketchbook to explore media, testing out ideas.
6. Presentation is important. Look at examples of GCSE/GCE sketchbooks either on Pinterest or click on the link: www.studentguide.com below to guide you on how to present your ideas.

Please don't forget to bring in your Art kit with all your art materials, including your Summer Bridging Project sketchbook, and your A5 sketchbook to your first Art lesson week commencing: **Monday 7th September.**

Enjoy, have fun! Mrs Clifton
